15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA	16C. DATE SIGNED
(Signature of person authorized to sign)		BY (Signature of Contracting Officer)	

AMENDMENT 001

DE-FC26-00NT40772

1. The next to last paragraph on page two of the introductory letter regarding M&O's is deleted and replaced by:

Applications submitted by DOE M&O contractors will not be eligible for an award under this solicitation. However, an application that includes performance of a portion of the effort by a DOE M&O contractor will be evaluated and may be considered for award, provided that the proposed use of any such entity is specifically authorized in writing by the DOE Contracting Officer or authorized designee responsible for the M&O.

2. Under Section II -- Conditions and Notices - - Article (O) - "Applicant Eligibility" - - Delete the paragraphs under under the heading "Participation by DOE M&O Contractors" and replace those paragraphs with:

Applications submitted by, or on behalf of: (1) another Federal agency; (2) a Federally Funded-Research and Development Center sponsored by another Federal agency; or (3) a DOE M&O contractor will not be eligible for an award under this solicitation. However, an application that includes performance of a portion of the effort by a DOE M&O contractor will be evaluated and may be considered for award, provided the proposed use of any such entity is specifically authorized in writing by the responsible DOE Contracting Officer or authorized designee and the applicant provides the additional information identified in Section III - Application Preparation Instructions. The responsible DOE Contracting Officer must determine that performance by the M&O contractor: 1) is consistent with or complementary to DOE missions and the missions of the facility to which the work is to be assigned; 2) will not adversely impact execution of assigned programs of the facility; 3) will not place the facility in direct competition with the domestic private sector; and 4) will not create a detrimental future burden on DOE resources.

If a project which includes M&O participation is approved for funding, DOE intends to make an award to the applicant for its portion of the effort and to provide funding for the M&O's portion of the effort through a DOE field work proposal (FWP) under the existing DOE M&O contract. The M&O contractor's workscope therefor will not be accomplished through a contract with a recipient as defined in 10 CFR 600.3. However, the recipient will be the responsible authority, without recourse to DOE, regarding the settlement and satisfaction of all contractual and administrative issues, including but not limited to disputes and claims, arising out of any agreement between the applicant and the M&O contractor.

3. Under Section III - Application Preparation Instructions - - Article B(8) "Additional Application Submission Requirements for FFRDC's, DOE M&O Contractors or

Laboratory Entities” - - Delete the words “by the DOE M&O contractor” at end of first sentence in para. (3) “Cost Information”. The following instructions are added to Article B(8):

4. If your application includes work to be performed by an M&O contractor, the following additional information is required:

A. Application and Field Work Proposal: The application must include a SF424, Application for Federal Assistance, and budget page for the applicant’s portion of the project and a Field Work Proposal cover page and budget pages (See DOE Order 5700.7C) for the M&O portion of the project.

The application must also describe: 1) the portion of the project that will be conducted by the applicant and the portion that will be conducted by the M&O contractor and 2) the managerial arrangement between the applicant and the M&O contractor. The scope of work to be performed by the M&O contractor may not be more significant than the scope of work to be performed by the applicant. DOE will review the application to determine that it meets this criteria and reserves the right to reject any application that fails to do so.

B. Authorization from the DOE Contracting Officer: The applicant must submit a document from the DOE Contracting Officer or authorized designee stating that the M&O contractor is authorized to participate in the proposed work effort (See Section II - Conditions and Notices).

C. Workscope: The application must provide a scope of work for the effort to be performed by the applicant and a separate scope of work for the effort to be performed by the M&O contractor.

(End of amendment 001)
